

Business Question and Visualization Report

Date	15 August 2026
Team ID	
Project Name	India's Agricultural crop production
Maximum Marks	5 Marks

1. Which state has maximum production?

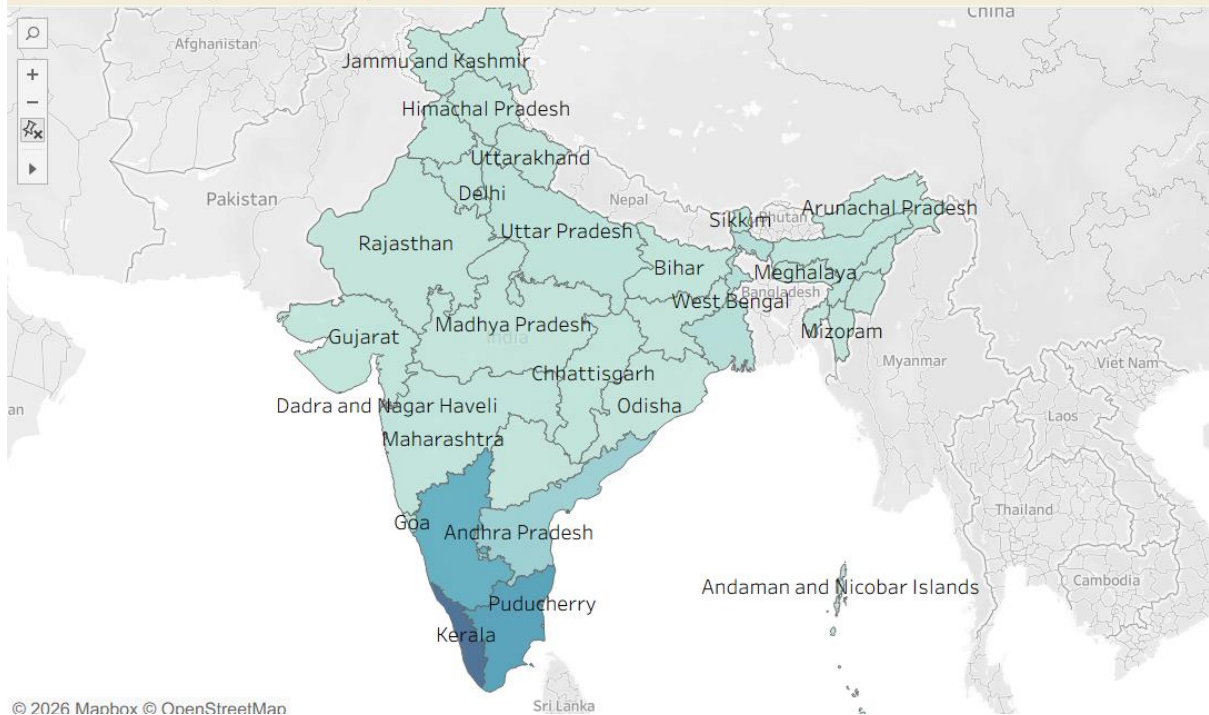

*Geographical map shows production of each state.

2. Which state has minimum production?

*Geographical map shows production of each state.

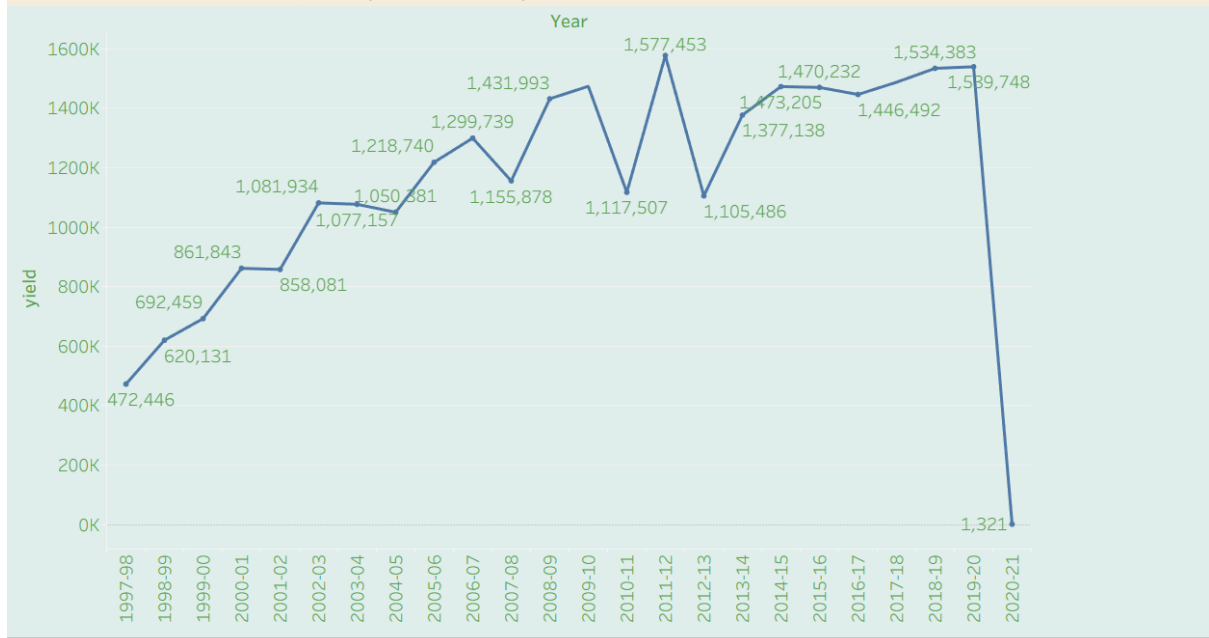

state wise agriculture production

3. Which year has maximum yield?

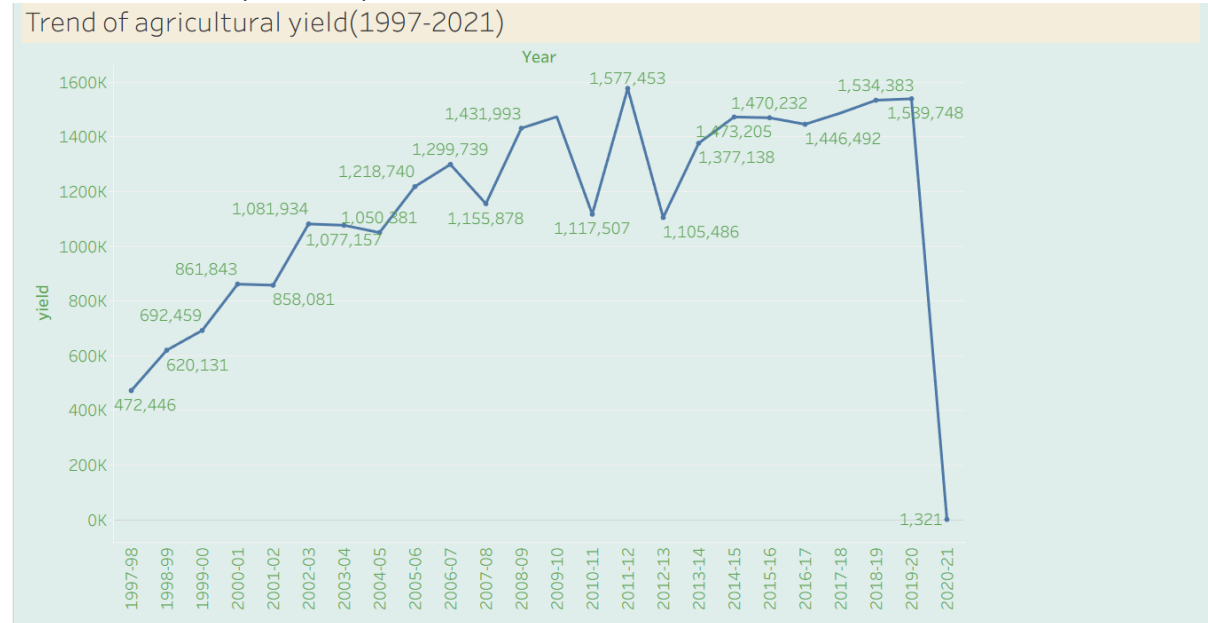

*bar chart shows year and yield.

Trend of agricultural yield(1997-2021)

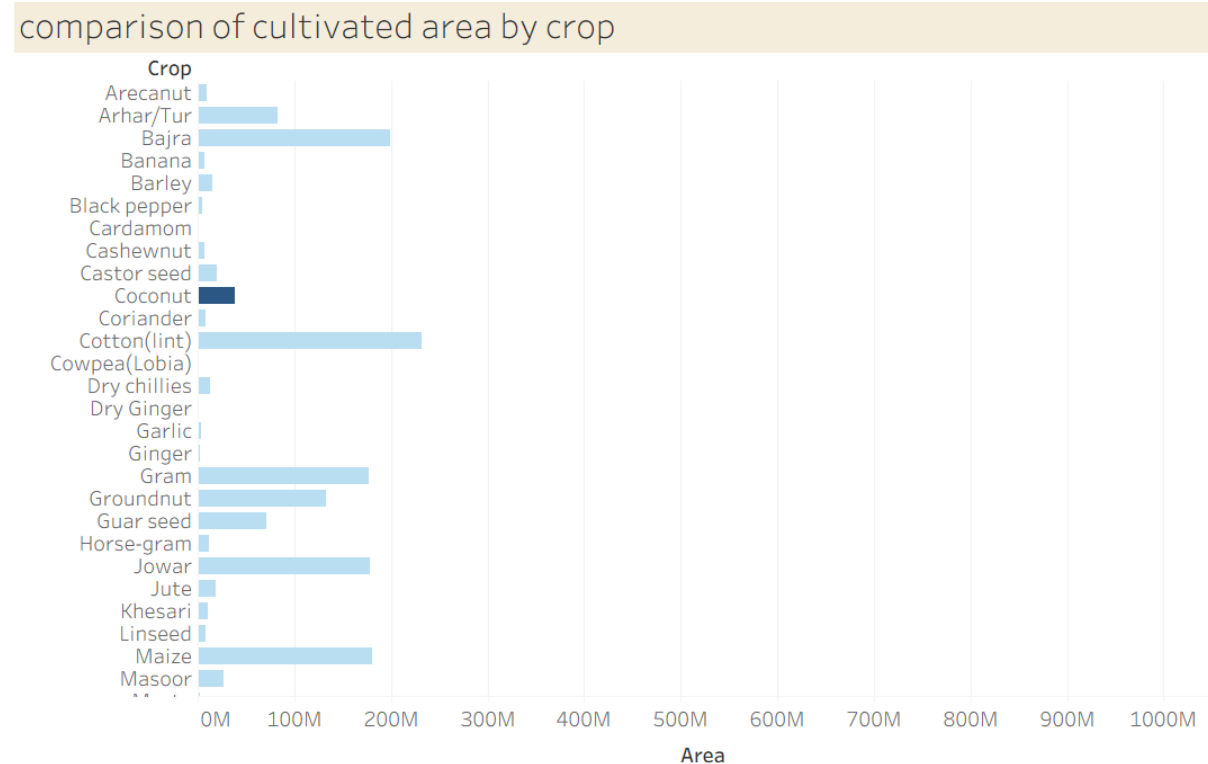

4. Which year has minimum yield?

*bar chart shows year and yield

5.Which crop has maximum cultivated area?

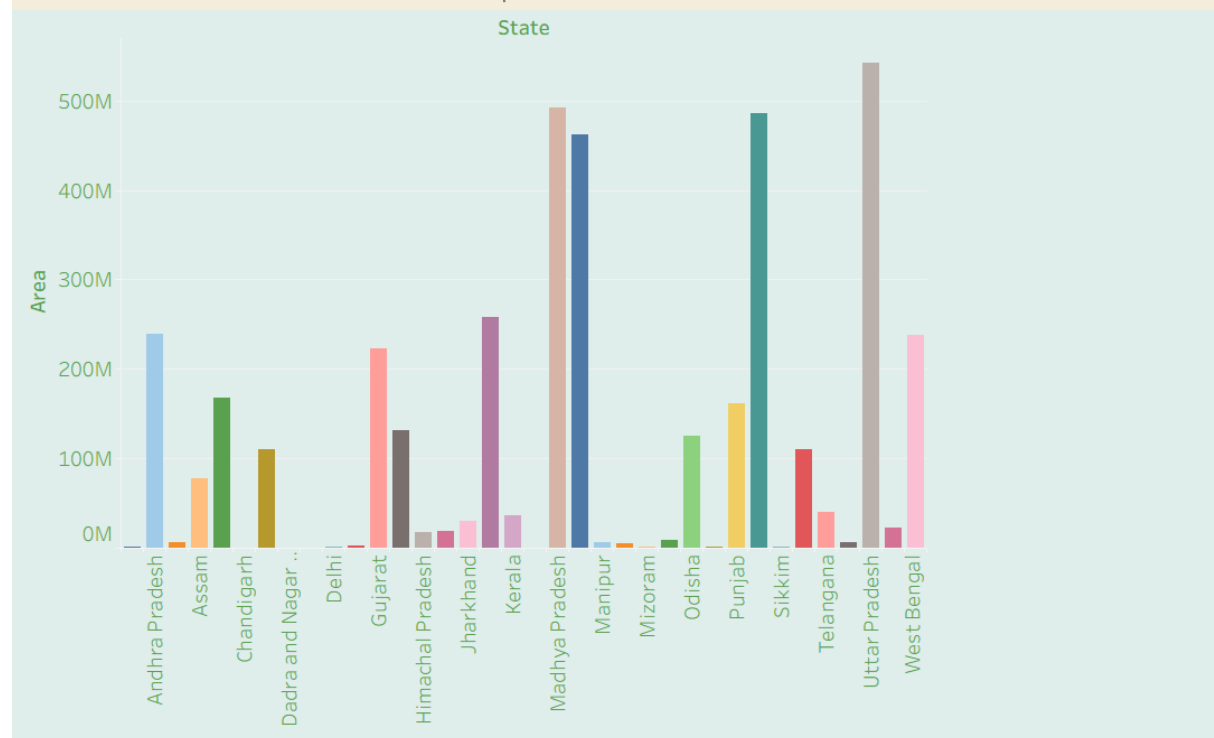

*Bar chart shows crop and area

6.Which state has maximum cultivated area?

*Bar chart shows area and states

state wise cultivated area comparison

7.Which state has maximum agriculture production?

*bar chart shows leading states

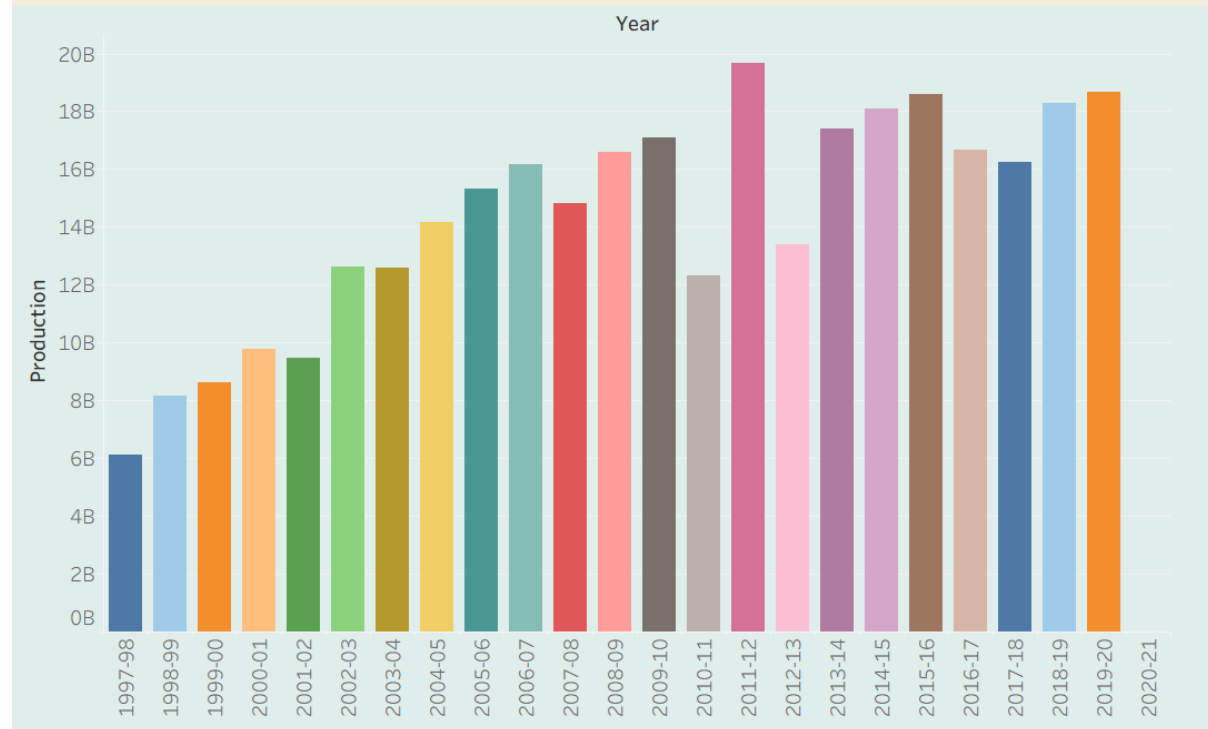

Leading states by agricultural production

8.Which year has maximum total agriculture production?

*bar chart shows year wise agriculture production.

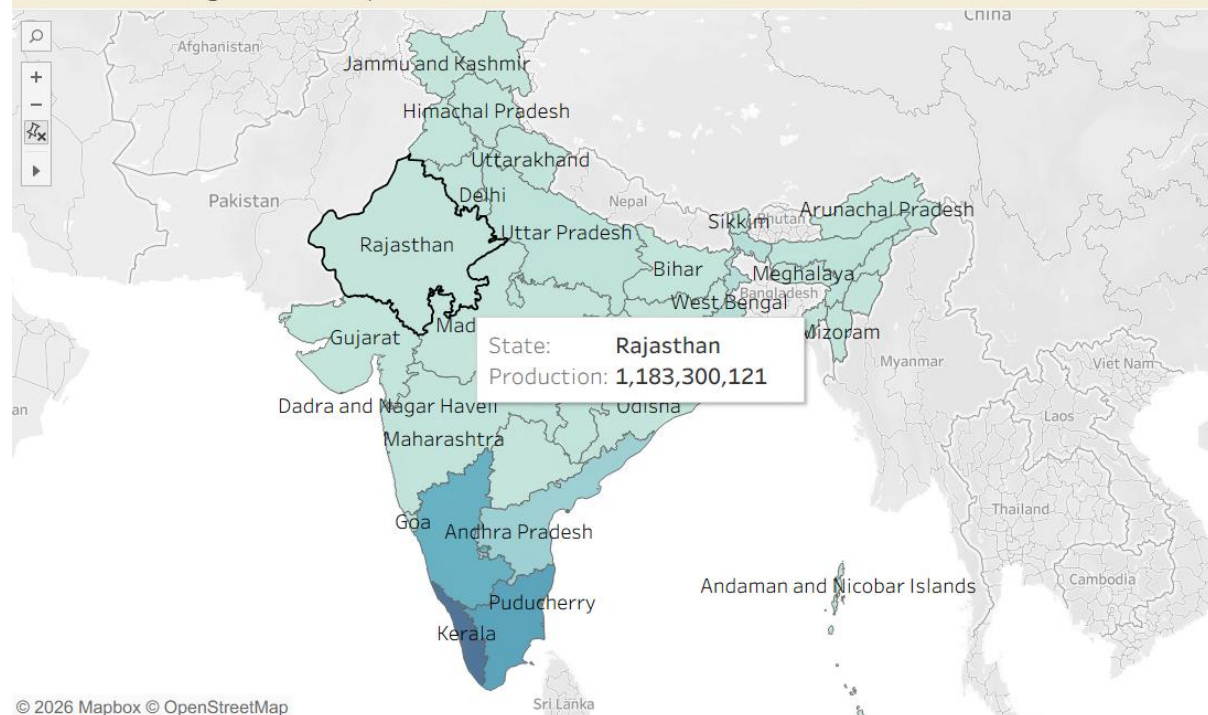

year wise total agricultural production (1997-2021)

4.2. Developing Visualizations

1.

state wise agriculture production

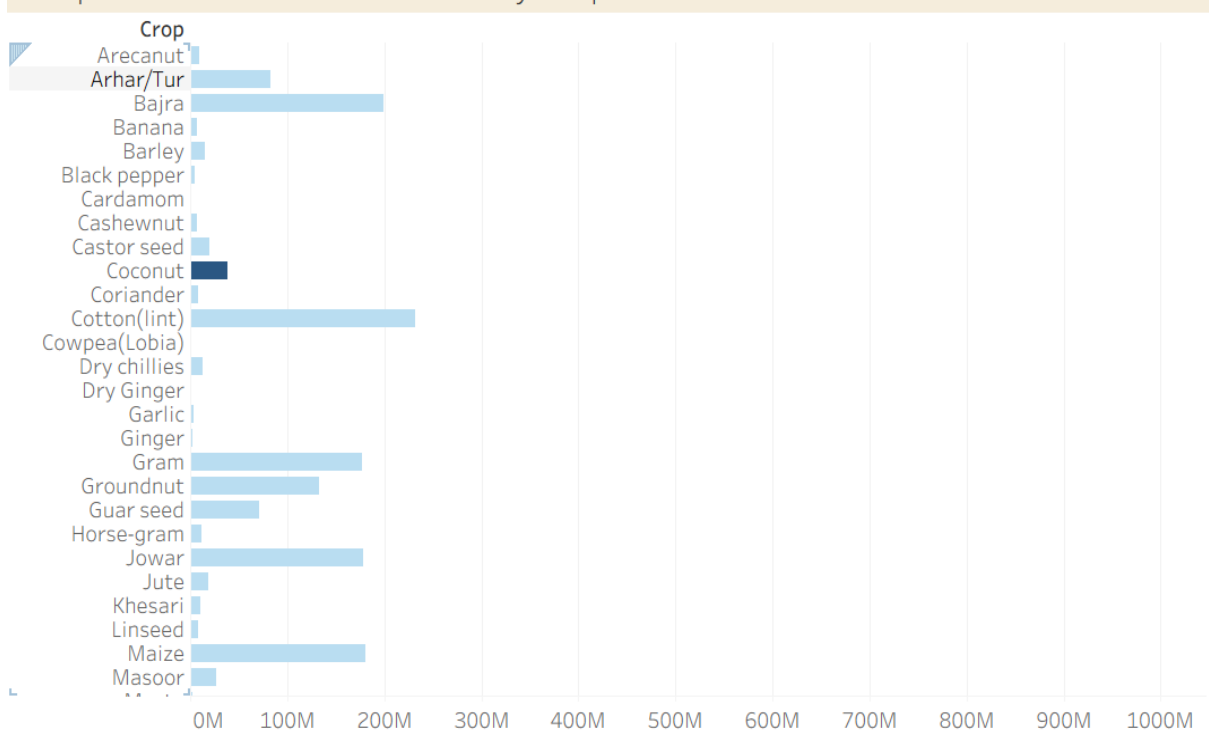

2.

Trend of agricultural yield(1997-2021)

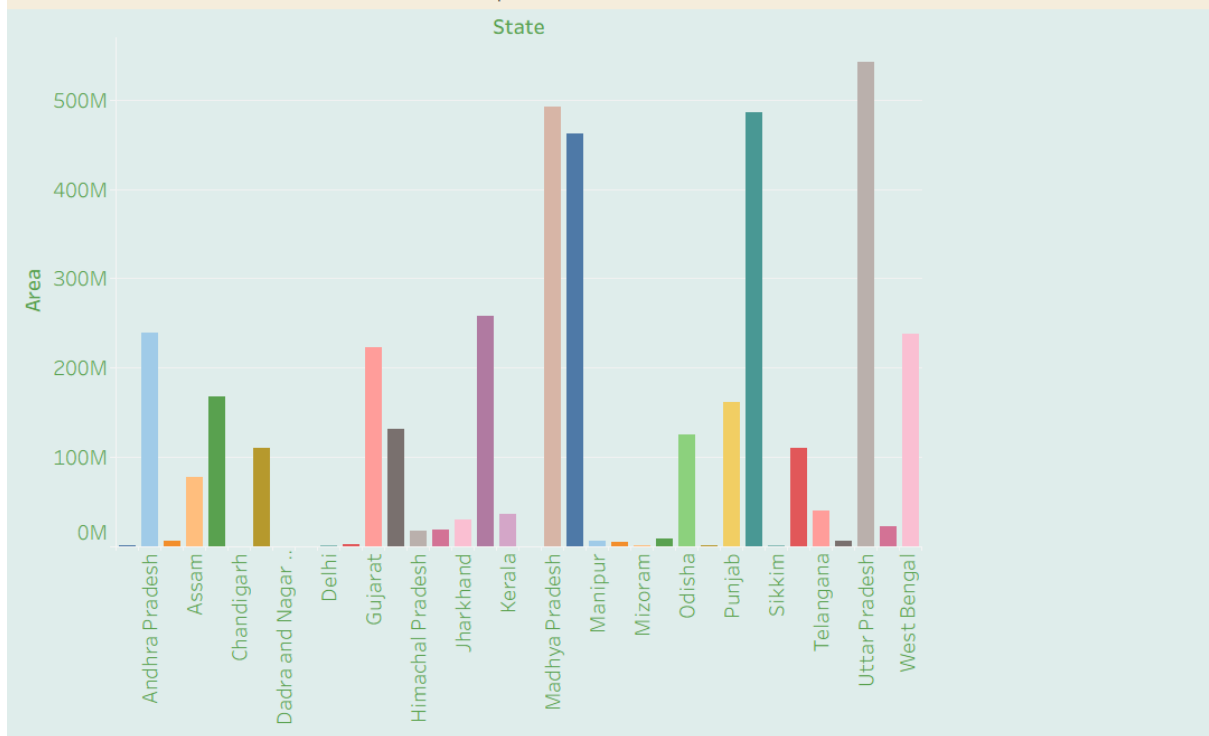

3.

comparison of cultivated area by crop

4.

state wise cultivated area comparison

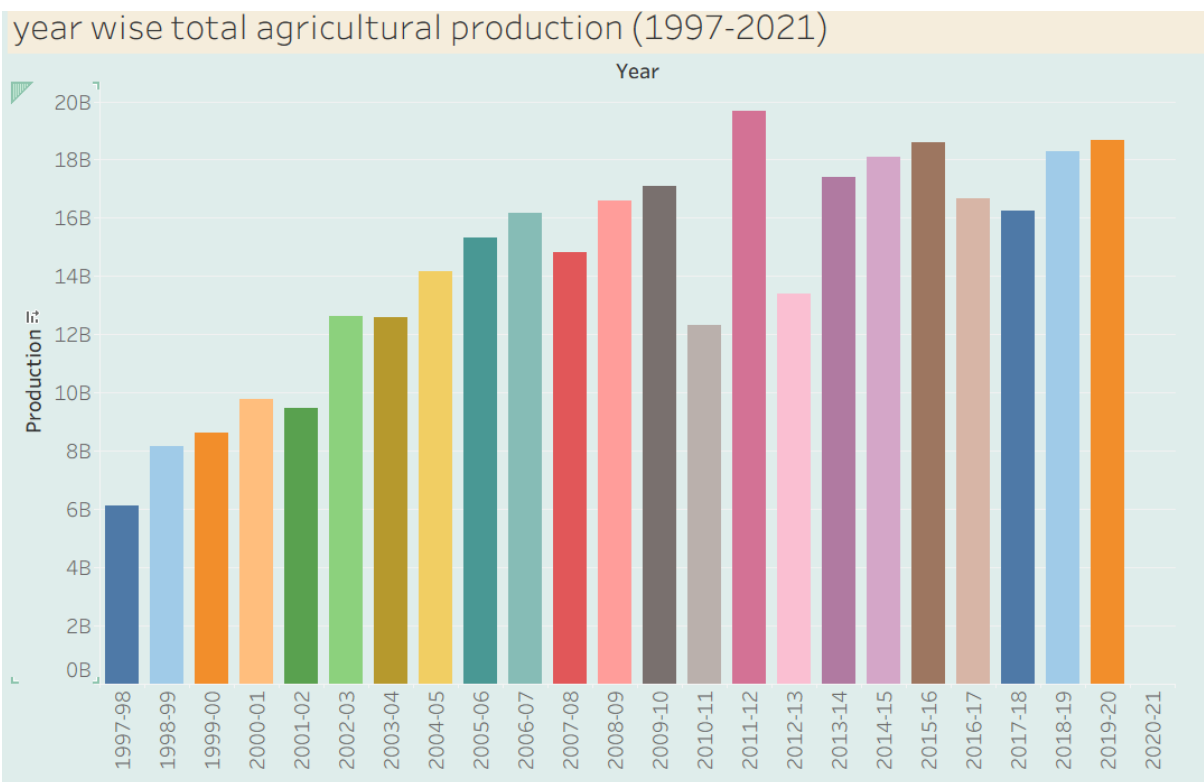

5.

Leading states by agricultural production

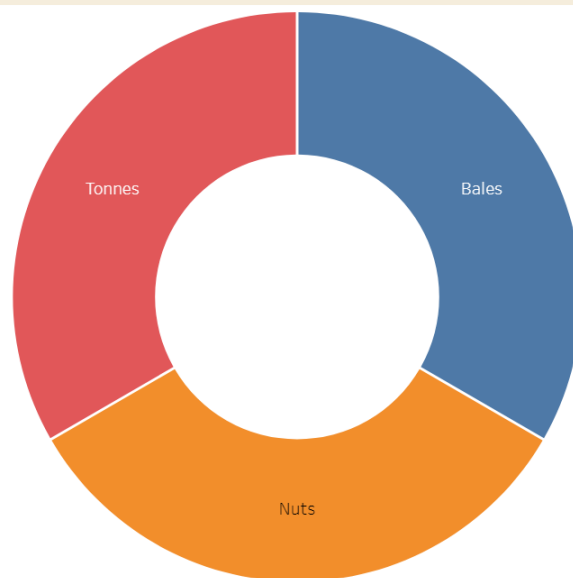

6.

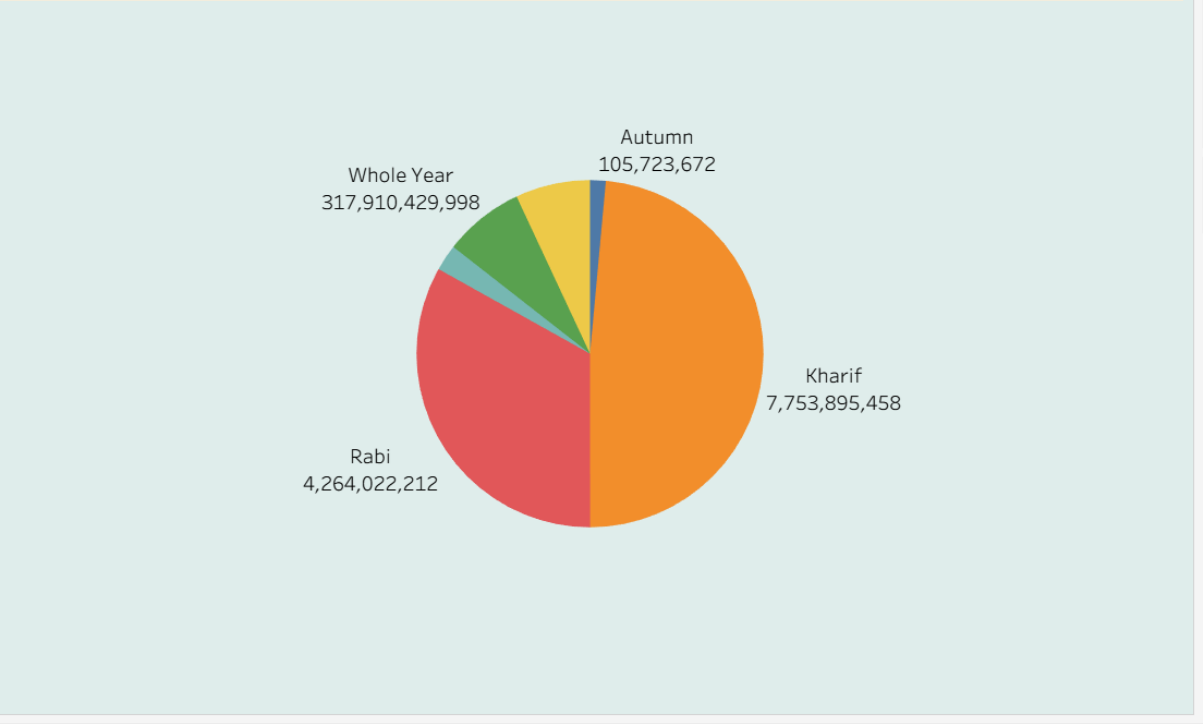

7.

production distribution by unit type

8.

season wise agricultural production share

9.

india agricultural performance summary

Area	4,031,130,486
Count of Sheet1	345,407
Production	330,997,839,211
yield	27,425,439
